PROFESSIONAL SUMMARY

Final-year Computer Science (AI & ML) undergraduate with hands-on experience building Generative AI applications, RAG pipelines, and Python-based ML solutions. Experienced with Python, NumPy, Pandas, Scikit-learn, LangChain, embeddings, LLM APIs, and FastAPI. Built and deployed practical AI/GenAI applications and seeking an entry-level Generative AI Engineer opportunity.

TECHNICAL SKILLS

Languages & Frontend: Python, Java, JavaScript, TypeScript, React, SQL, HTML5/CSS3
AI / ML & GenAI: Python, Scikit-learn, Pandas, NumPy, NLP, RAG, LangChain, Sentence Transformers, LLM APIs
Databases & Backend: ChromaDB, PostgreSQL, MySQL, FastAPI, Flask, Pydantic, REST APIs, Razorpay API
Tools: Git, GitHub, Docker, Streamlit, Jupyter Notebook, VS Code, PyCharm, Cursor

TECHNICAL PORTFOLIO & PROBLEM SOLVING

- GitHub Projects & Repositories: github.com/prashanthpolisetty | Live Deployed Web App: ragbotq.streamlit.app
- Algorithmic Problem Solving: 80+ LeetCode problems solved (Arrays, Strings, Trees, Graphs, SQL) | leetcode.com/u/polisetty_prashanth

PROFESSIONAL EXPERIENCE

Machine Learning Intern — Unified Mentor May 2025 – Jun 2025
Remote, India

- Built end-to-end regression pipelines in Python and Scikit-Learn for House Price Prediction and Mobile Phone Price Estimation.
- Performed EDA on structured datasets: missing-value treatment, correlation heatmaps, feature engineering, and data scaling.

TECHNICAL PROJECTS

PayPilot-AI — Agentic Commerce Platform (Razorpay Buildathon, Track 01)

Python, FastAPI, React 18, PostgreSQL, Razorpay API, Docker, Gemini / Groq | Repo: github.com/prashanthpolisetty/PayPilot-AI

- Built an AI-native merchant commerce platform with an 18-step agentic pipeline in which a buyer agent reasons over customer constraints, searches product catalogs via semantic RAG vector search, and proposes contextual upsells.
- Enforced server-side HMAC-SHA256 Razorpay signature validation and a deterministic ₹1,00,000 transaction cap, with human-in-the-loop authorization gating every payment.

Document RAG Chatbot — GenAI / RAG Web Application

Python, LangChain, ChromaDB, Llama 3.1, Streamlit | Live: ragbotq.streamlit.app | Repo: github.com/prashanthpolisetty/RAG-bot

- Built and deployed a **Natural Language Processing (NLP) and Retrieval-Augmented Generation (RAG)** application that processes user-uploaded PDF/text documents and answers natural-language queries in real time. Achieved
- >80% evaluation accuracy using all-MiniLM-L6-v2 Sentence Transformer embeddings and a persistent ChromaDB vector store.
- Cut document processing overhead by 35% via recursive asynchronous directory scanning and structured metadata tagging.

Meeting Minutes Generator — Speech AI & Automation

Python, TypeScript, OpenAI Whisper, Groq API, Google Gemini API | Repo: github.com/prashanthpolisetty/Meeting-minutes-Generator

- Built an autonomous meeting assistant that transcribes audio locally with OpenAI Whisper for low latency and privacy, extracts structured summaries, key decisions, and action items via Groq and Gemini LLMs, and emails participants automatically.

AI Resume Analyzer

Python, LangChain, Google Gemini API, Pydantic | Repo: github.com/prashanthpolisetty/AI-Resume-Analyzer

- Built an AI resume screener with LangChain and the Gemini API that evaluates profiles 15x faster than manual recruiter parsing.
- Enforced strict JSON schemas with Pydantic to extract keyword matches, grammatical quality indices, and skill gaps.
- Designed few-shot and Chain-of-Thought (CoT) prompts, achieving 80% format consistency across ATS scoring reports.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML) 2024 – 2027
Neil Gogte Institute of Technology (NGIT), Hyderabad | CGPA: 8.31 / 10.0

Diploma in Tool & Die Making 2020 – 2024
Central Institute of Tool Design (CITD), Hyderabad | 74.15%

Secondary School (10th Grade) 2020
Navodaya High School, Gadwal | CGPA: 9.8 / 10.0

CERTIFICATIONS & INDUSTRIAL TRAINING

- GenAI Powered Data Analytics Job Simulation — Forage & Tata Group (Jun 2026): enterprise data workflows with Python and GenAI.
- Industrial Engineering Trainee — Tata Advanced Systems Limited, Hyderabad (2023): precision tool engineering and quality compliance.
- Mobile App Development (Kotlin) Certification — online training (2024).
